

Safety

Deep Reduction

 You saw a time to come
 Where the eyes of the world would see as one
 You saw a time to come
Where all of our laughter is seen through the eyes of the sonAn' you'll get angry in this town
 Cos' you've seen more than what's been found
 You can't be too needy in this town
 Cos' there's enough of that aroundSafety in lovers
 Freedom from therein
 Safety in lovers
 And somewhere to beginYou saw a time to come
 Where the eyes of the world will cry as one
 You saw a time to come
Where all of our work's not done for the good of someAn' you'll get angry in this town
 Cos' there's not more than what's been found
 You can't be too needy in this town
 Cos' there's enough of that aroundSafety in lovers
 Freedom from therein
 Safety in lovers
 And somewhere to beginSafety in lovers
 Freedom from within
 Safety in lovers
 And somewhere to begin
