

# When You Are Around

## Arid Zone Avenues

When you are around  
the mountains back down to your beauty  
The stars shine bright in the dark, dark night  
but they can never shine as bright as you  
When you are around When you are around  
I know I can be myself  
and not have to pretend to be someone I'm not  
Although I may st-st-stutter  
and may be having a heart attack  
you know its because  
You are around When I see your smile  
I cant help but sing a few love songs  
And when you walk away I just cant help but follow  
And every time you hug me  
It makes me feel like I could faint  
When you are around When you are around  
I get this selfish feeling  
I just wanna have you all to myself  
You take all my doubts  
and then give me hope and peace in my heart  
When you are around When I see your smile  
I cant help but sing a few love songs  
And when you walk away I just cant help but follow  
And every time you hug me  
It makes me feel like I could faint  
When you are around When you arent around  
I feel a sort of emptiness in my heart  
And when you arent around  
I get depressed cause I can't see your smile When I see your smile  
I cant help but sing a few love songs  
And when you walk away I just cant help but follow  
And every time you hug me  
It makes me feel like I could faint  
When you are around
