

# Vision Conquest

## Napalm Death

Witness torment in its purest form  
Impossible definition of infinite pain  
Look into my eyes  
What do you think you see?  
What you see is not me  
But a dormant stage of what I'm expected to be  
Realities lifeline cuts through me  
Forever destined to a life of misery  
Realities lifeline cuts through me  
It manifests my vision conquest  
Mourn not the dead, the living suffer  
Enter me, witness torment
