Ploughshares Into Guns

The Toasters

They've taken all the money turned the ploughshares into guns
Gone to an eastern country, bombed them back to kingdom come
With a laser guided weapon some million dollar bomb
Makes a poor man wonder where is that coming fromTake me down
Hear me nowLying politicians keep afloat this ship of fools
They've stolen all the money from the hospitals and schools
Don't worry about the hungry don't worry about the sick
Just worry about the profits and the way to make them quick
Take me down
Hear me now
Spin it off
Meanwhile back in...Meanwhile in the city the god of war looks down
The lack of education, gonna tear apart this town
The kids are getting restless, they're armed right to the teeth
The toll in lives expensive while the price of life is cheapHey!
Burn it down
Rip it up!
Take me down
Well they've taken all the money turned the ploughshares into guns
Gone to some eastern country and bombed them back to kingdom come
Some million dollar weapon, some laser guided bomb
Makes a poor man wonder where is that coming from
Where is that coming from!Ploughshares into guns
Ploughshares into guns, yeah
Ploughshares into guns
