On This Winter Night

On this winter night

Music and Lyrics by : Charly Sahona

Try to face a cold and silent truth,
I am drifting.
Living in a broken fairy tale
Since time stood still.
On this winter night....
And days go by,
And dreams stay trapped,
On this winter night.
As tears roll by,
Thoughts fly to
This winter night.
I pray to mute all the hopes and fears
That I have...
How could my dreams fade away?
While you run through my mind ,
Since that winter night.
The days go by,
The dreams stay trapped,
On this winter night.
As tears roll by,
Thoughts fly to
This winter night.
Got to find a way to get it back,
Got to find a way to let it go.
