Put You In Your Place

Face to Face

What was that you said to me?
I'm not exactly sure I heard you right
What is it you want from me?
I'm not exactly sure I will complyYou think you've got me where you want
You think you're better but you're not
I don't mean anything to you
Why?Don't make me put you in your place
You don't think I'd let you make a fool of me
Don't make me put you in your place
You don't think I'd let you make a fool of meWhat do you expect from me?
Are you really looking for a fight?
What do you expect to see?
For me to lose control, I think I mightYou think you've got me where you want
You think you're better but you're not
I don't mean anything to you
Why?Don't make me put you in your place
You don't think I'd let you make a fool of me
Don't make me put you in your place
You don't think I'd let you make a fool of meYou think you've got me where you want
You think you're better but you're not
I don't mean anything to you
Why?Don't make me put you in your place
You don't think I'd let you make a fool of me
Don't make me put you in your place
You don't think I'd let you make a fool of meDon't make me put you in your place
You don't think I'd let you make a fool of me
Don't make me put you in your place
You don't think I'd let you make a fool of me
