Dummy Block

Element Eighty

You are a walking contradiction
You speak with false intentions
but I know what you really want from me
You're gonna make me flip this switch
I'm gonna make you my bitch
Now I understand all of the lies you hide and
you're gonna make me flip this switch
I'm gonna make you my bitch
Now I understand this
Take your insecurities out on me while I destroy you
realize that you should never test me
You're gonna make me flip this switch
I'm gonna make you my bitch
Now I understand all of the lies you hide and
You're gonna make me flip this switch
I'm gonna make you my bitch
Now I understand this
Don't lie
Don't lie

Don't lie
Don't lie
I will never break (don't lie)
I will never break (don't lie)
I will never break (don't lie)
I will never break
You're gona make me flip this switch
I'm gonna make you my bitch
Now I understand all of the lies you hide and
you're gonna make me flip this switch
I'm gonna make you my bitch
Now I understand this
I understand you
You're gonna make me flip this switch
I'm gonna make you my bitch
Now I understand all of the lies you hide and
you're gonna make me flip this switch
I'm gonna make you my bitch
Now I understand this
