

# Can't Walk Out

## Graveyard

I saw you try to walk out on yourself.

Walk out on what you have become.

I saw you walk out on the Universe.

Walk out on the ones who came along. Walk, walk, walk, walk out on yourself. Saw you sit down to drink your wine.

Saw you dance through life till your music died. Dance, dance, dance till your music died.

Dance, dance, dance till your music lied. Waited for shazam.

Shazam, shazam, shazam.

Shazam. But you can't walk out on the Universe.

Gotta keep on dancing when your music dies.

No, you can't walk out on the Universe.

Gotta keep dancing when your music dies.

Watch out, here it comes, shazam.

Here it comes.

Shazam, shazam, shazam!

Shazam! What's the true Earth, show what have we become.

But reality decided to live your truth.

What was said, do never let them pin you down.

You push the termination down their throat. Push, push, push reality aside.

Freak, freak, freak, freak them out and sing. But you can't walk out on the Universe.

Gotta keep dancing when your music dies.

No, you can't walk out on the Universe.

Gotta keep on dancing when your music dies. Shazam.

Shazam.

Shazam.

But you can't walk out on the Universe.

Gotta keep on dancing when your music dies.

No, you can't walk out on the Universe.

Gotta keep on dancing when your music dies. But you can't walk out on the Universe.

Gotta keep on dancing when your music dies.

No, you can't walk out on the Universe.

Gotta keep on dancing when your music dies. No, you can't walk out on the Universe.

Gotta keep on dancing when your music dies. When you fought yourself.
