

# Hero

## Pop Evil

I'm barely breathing  
I'm barely alive  
When did it all come tumbling down  
Your actions speak louder  
Than all of the thunder  
That you brought back  
Down on me I won't be, I won't be your hero  
I won't be your superman  
Everything I did was for you  
Everything you said was a lie  
My pain, your gain  
Who's your hero today? Who's your hero? No more second chances  
No more lies  
This time, you're going down  
Your days are guilty  
Your not so blind  
I won't be the reason  
You fall this time I won't be, I won't be your hero  
I won't be your superman  
Everything I did was for you  
Everything you said was a lie  
My pain, your gain  
Who's your hero today? Who's your hero? Who's your hero? I won't be  
I won't be your  
I won't be  
I won't be your hero Everything I did was for you  
Everything you said was a lie  
My pain, your gain  
Who's your hero today? Who's your hero? Who's your hero?
