

The Only Medicine

Scary Kids Scaring Kids

I wash it down, just to block out all the sound.
I never thought I'd be alone. Well look at me now. Sleepless nights, painful goodbyes.
Who the hell was I kidding?
The room starts to spin,
All alone and bleeding once again.
Can you help me make this.. make this fucking end?[Chorus]
Oh my god there must be something,
Something to take the pain away.
And so there's nothing you can give me.
It's probably better off that way. Just forget, all I ever wanted was to forget.
Bloodshot eyes and a starless sky.
Who the hell are we kidding? You look so content, I guess the bright side hasn't found me yet.
Pull me out so I can catch my breath.[Chorus] I live my life in the shadows of the things I try to hide.[Chorus]
