Overcrowded Room

Bleed the Dream

She showed up wearing red
She's all inside my head
While we were standing in this overcrowded roomThe essence of your eyes
Makes me just want to die
And I can't stand the way they'll never look at me againI think about you every night
And though we couldn't make things right
I'm waiting for the time we'll share the same bedroom againDon't go
I'm gonna make you stay with me
Till I'm through(Standing in this overcrowded room)
And please, make me brand new
(Standing in this overcrowded room)I know you're on my side
I know you've doubted once or twice
And I don't know if I could be the same person againThere's something you should know
It's so easy for me to say no
'Cause you're the only one I want to be with in the endDon't go
I'm gonna make you stay with me
Till I'm through(Standing in this overcrowded room)
And please, make me brand new, new, new
(Standing in this overcrowded room)I know you're on my side
I know you've doubted once or twice
And I don't know if I could be the same person againThere's something you should know
It's so easy for me to say no
'Cause you're the only one
