

# Overcrowded Room

## Bleed the Dream

She showed up wearing red  
She's all inside my head  
While we were standing in this overcrowded room  
The essence of your eyes  
Makes me just want to die  
And I can't stand the way they'll never look at me again  
I think about you every night  
And though we couldn't make things right  
I'm waiting for the time we'll share the same bedroom again  
Don't go  
I'm gonna make you stay with me  
Till I'm through  
(Standing in this overcrowded room)  
And please, make me brand new  
(Standing in this overcrowded room)  
I know you're on my side  
I know you've doubted once or twice  
And I don't know if I could be the same person again  
There's something you should know  
It's so easy for me to say no  
'Cause you're the only one I want to be with in the end  
Don't go  
I'm gonna make you stay with me  
Till I'm through  
(Standing in this overcrowded room)  
And please, make me brand new, new, new  
(Standing in this overcrowded room)  
I know you're on my side  
I know you've doubted once or twice  
And I don't know if I could be the same person again  
There's something you should know  
It's so easy for me to say no  
'Cause you're the only one
