

Babe

Jack Green

Babe, don't want to get older
Feel like, it's closer every day
What I see is going on around me
I can't help but turn and look away

Some people got nothing to say,
Other people just get in my way
Me, I just fit in my kind babe,
babe

Babe, I gotta do something
One thing, nobody's ever done
Make myself a hero of the people
Brother had luck(?) buy myself a gun.

Some people don't keep what they find
Other people just make themselves blind
Me I go out of mind babe
Babe
Babe
Babe

Babe wanna get away, wanna get away babe
Don't wanna hurt me, no one's gonna hurt me babe
Babe wanna get away, wanna get away babe
Don't wanna hurt me, no one's gonna hurt me baby

Some people got nothing to say
Other people just get in my way
Me I just fit in my kind babe,
Babe

Babe, nobody's gonna hurt me
Not like I've been hurt before
One, two, three - It's over in a moment
One, two three, four - I'm back up on the floor

Some people got nothing to say
Other people just get in my way
Me I just fit in my kind babe

Babe

Babe wanna get away, wanna get away babe
Don't wanna hurt me, no one's gonna hurt me babe

Babe wanna get away, wanna get away babe
Don't wanna hurt me, no one's gonna hurt me babe

Babe
