

Yes We Faded

Keys N Krates

[Intro]

Faded, faded

Faded

Faded, faded

Faded[Hook]

I ain't gon' drink no more, gon' drink no more

I ain't gon' drink no more, gon' drink no more

I ain't gon' drink no more, gon' drink no more

I ain't gon' drink no more, gon' drink no more

(Fuck it, fuck it, fuck it)

One more, one more

One more, one more

One more, one more

One more, one more then more and more[Verse 1]

Think I love you, but I don't know you

What you did last night got a nigga feelin' like I might own you

Watch it come right back

Girl where you get a bum like that?

Truth is I never had fun like that

How you learn to use your tongue like that?

Yeah, you know that I get it

Keys and the crates and it's all for my niggas

If you're ballin' I'm with ya

One more bottle my nigga[Hook][Verse 2]

I've been around the globe, did a lot of shows

Things are getting hot, fuckin' on the low

She slidin' down the pole though

Chains clickin' like a photo

I can drink for hours, got that Austin Powers

She in love with the mojo

Said she love me, she loco

Yeah she my polo

Never been sober

No that's a no no

If I want her I get her

Drink way too much liquor

If you're ballin' I'm with ya

One more bottle my nigga[Hook][Outro]

Are we alright (faded), are we alright (faded)

Are we alright (faded), are we alright (faded)
Are we alright (faded), are we alright (faded)
Are we alright (faded), are we alright (faded)
Are we alright (faded), are we alright (faded)
