U & U & Me

2gether

Let's get to know each other better
In a special way
I think about you, baby
Each night and day
But you're always hanging out
With the girl next door
You do each other's makeup
And so much more
Friday slumber parties
When your parents are gone
I think about you girls
How we can get it on
(Chorus)
U & U & Me
Together we make three
In perfect harmony
Just U & U & Me
U & U & Me
Together we make three
A perfect fantasy
Just U & U & Me
U & U & Me
Together we make three
When I think about you girls
It makes me feel so fine
And when I call you on the phone

I need the party line
Playing Spin the Bottle
Kisses sweet as wine
I must've won the lotto
To hit you and you and I
(Chorus 2x)
Listen girl
When you kiss me
On my mouth
And down my neck
All at the same time
When you both whisper different things

Into different ears
I can't try to pretend Girlfriends
U & U & Me
Together we make three, whoa
U & U & Me
Together we make three, whoa
(Chorus 2x)
U & U & Me
Together we make three
U & U & Me
Together we make three
U & U & Me
