If You Only Knew

Savannah Outen

If you only knew
That I think about you
In a kind of secret way
I say kind of 'cause
Well it's obvious
That I must be feeling these thingsToo bad you can't tell 'cause...If you only knew
It would be a dream come true
Standing next to you
Yeah I might go insane to know
That you feel the same as I do
If you only knewIf you only knew
I write songs about you
In the lyrics of the feel
I imagine us chillin' out and stuff
When I close my eyes this is realSinging out your name...If you only knew
It would be a dream come true
Standing next to you
Yeah I might go insane to know
That you feel the same as I do[Bridge]
And then maybe someday
You'd write me a song too
If I had it my wayIf you only knew
If you only knewIf you only knew
It would be a dream come true
Standing next to you
Yeah I might go insaneIf you only knew
It would be a dream come true
Standing next to you
Yeah I might go insane to know
That you feel the same as I do
If you only knew
