

# Mandalay Again

Elton John & Leon Russell

Rules and regulations,  
And real estate are things I've left behind  
Fights are always leaving  
Silver wings unfolding on a dime  
But I won't forget to tell you  
If I could only reconnect the line  
I really never knew you, but come back I'd like to find the time  
Drug and consequences  
And ferris wheels just took us up and down  
Fights were always brewing  
Two perfect understudies for a clown  
If I could piece it all together  
Or maybe find you through a friend  
Last I heard it was St. Louis  
But I wish that it was Mandalay Again  
Come back I'd like to find the time  
Plant a seed and raise a little Cain  
Come back we'll throw a rope around the moon  
And pretend that we're in Mandalay Again  
Fuel and information  
Are Siamese twins who poison everything  
Lies that left us drowning  
Rumor that burned like gasoline  
I could have read you like a book  
Instead I acted dumb and blind  
I was younger then and foolish  
Come back I'd like to find the time  
Come back I'd like to find the time  
Plant a seed and raise a little Cain  
Come back we'll throw a rope around the moon  
And pretend that we're in Mandalay again  
It it wasn't in the afterglow of wine  
Or the chatter of some European girl  
I'd have understood that after all these years  
There were those who chose to separate our worlds  
Separate our worlds  
Come back I'd like to find the time  
Plant a seed and raise a little Cain  
Come back we'll throw a rope around the moon  
And pretend that we're in Mandalay again  
And pretend that we're in Mandalay again  
We'll pretend that we're in Madalay again
