Ctwyl

Pitty Sing

Were always there
When youve lost your friends
Cus they say youre never there
But well be everywhereIts always you
When youve lost your head
And you say its never you
Well always pull you throughWell change the way you live
Well change the way you love
Well change the way you
Spend your day everydayWell change the way you live
Well change the way you are
Well change the way you
Like to go and break my heartWell change the way you look
Well change the way you talk
Well change the way you
Do your hair everywhereWell change the way you live
Well change the way you live
Well change the way you liveWere always on
When youve lost control
And your heart is almost goneWere always moving on
And well be everywhere
On the backs of those who need us most
And were everywhere
