

Where We Are

Westlife

Stay, stay where you are
Don't let me go, don't let me go
Made it this far
Oh baby, stop, stop right there
Don't walk away, don't walk away
Into thin air
We survived a crash
Made it through the wreckage
Standing here at last
So perfectly written
Now where we are
Is where we're suppose to be
Where we are
Keeps the breath in me
Where we've been
Risen from the deep
Where we're now no one can tear us apart
That's where we are
Don't, don't turn around
We gotta live, we got to live
Go off the past now
Oh, feel me by your side
We're out of danger
No reason to hide

We survived the storm
Made it through the hurricane
Standing here at last
Dry despite the rain
And now where we are
Is where we're suppose to be
Where we are
Keeps the breath in me
Where we've been
We've risen from the deep
Where we're now no one can tear us apart
That's where we are
That's where we are
Stay, stay where you are

Where we are
Is where we're suppose to be
Where we are
Keeps the breath in me
And where we've been
We've risen from the deep
Where we're now no one can tear us apart
That's where we are
That's where we are
