

I Don't Love You Too

Olly Murs

hey,
and its the morning after last night
I got in late and you were up for a fight
oh brought up some things
that you didn't like
you said get out
I said that I just might Sometimes I feel like were not going to make it
Sometimes we act like we really hate this
But we couldn't replace this
Lets face it Its true
Yeah we could both be cruel
Yeah we could both be fools
I play that game as well as you can do
to treat me the way you do
and act like you never knew
and I'll pretend that I don't love you too
I don't love you too, don't love you too
you know I do hey
why is it when we fight that you look your best?
I know its hot but could you wear any less
well I wont be there so who you trying to impress?
You're making damn sure that I don't have to guess sometimes I swear that you just wanna break
sometimes I swear that I'm not gonna take it
yeah I might as well face it
we might as well face it its true
Yeah we could both be cruel
Yeah we could both be fools
I play that game as well as you can do
to treat me the way you do
and act like you never knew
and I'll pretend that I don't love you too you play the role
yeah we put on a show
and both of us act like were ready to let go
but I know I'd miss it all
and its too far to fall you know its true
Yeah we could both be cruel
Yeah we could both be fools
I play that game as well as you can do
to treat me the way you do

and act like you never knew
and I'll pretend that I don't love you too
I don't love you too, I don't love you too, oh oh
but I do, you know I do, yeah yeah
You know that I oh oh oh oh
You know that I oh oh oh oh
You know that I do, I do love you
Do love you
