World Dominator

Against All Authority

Advisory - the following lyrics contain explicit language:

Where do we go from here when all is lost?
Nothing gained but we've sure paid the cost.
Consciousness sold and bought,
Turn the box on, turn off all thought
About the world around you.
Consume so much it drowns you out,
Holding you to your station,
Another product of assimilation.
Falling down, down!
Further than you know, still you make no sound
About it, shout it out real loud,
Try to stand out and you're swallowed by the crowd.World dominator, world domination! [x7]
World dominator, domination!Unwittingly comply
To those in control, and remain preoccupied,
Sucking on the supply
That we rely on.
We rely too much on those around us,
Slowly surrounding us all, they pound us down,
Down! Never making a sound,
Let's light this match and burn it all down.World dominator, world domination! [x7]
World dominator, domination!Domination... as you lead us into war. (Hey hey!)
Domination... we've come to ignore your
Domination... as you lead us into war. (Hey hey!)
Domination... we've come to ignore it.World dominator, world domination! [x7]
World dominator, domination
