Give Me Kindness

David Coverdale

(coverdale)Sit here crying, looking at the barroom floor
I look on my glass like a crystal ball
Oh, ladies with their velvet eyes,
They look so sweet and fine
One night lovers, always discover
Riding on a one track mind..
So tell me who, who, who has been fooling who?Baby, baby, give me kindness
Warm me with the morning sun
Help me lose this blindness
To see my life as it goes...Honey, if you lie to me
I just want to know if,
If your love is true
Cause one day I'll joke
On all this whiskey and coke
And I'm sure I'll put the blame on you
Maybe baby you could show me some more,
You seem to be feeling good
Everytime I wanna hold you baby,
Give me what a good woman should
You tell me who, who, who has been fooling who?Baby, baby, give me kindness
Warm me with the morning sun
Help me lose this blindness
To see my life as it goes...Sing out brother (sing out brother)
Sing out sister (sing out sister)
Tell me like it is, like it is
Like it is, day or night
Sing out brother (sing out brother)
Sing out sister (sing out sister)
We can always drink the water
But you know we gonna drink the wineSing out brother (sing out brother)
Sing out sister (sing out sister)
Tell me like it is, like it is
Like it is, day or night
Sing out brother (sing out brother)
Sing out sister (sing out sister)
We can always drink the water
But you know we gonna drink the wine...
