

Almost Ready

The Normals

I've been asking 'round if you were there
Asking but I'm always scared
Asking 'cause I want to care againCome on, life
I'm almost ready
But not right
I'm almost readyI've been wondering if the message sent
Wondering if I made a dent
Wondering what it is you meant againCome on, life
I'm almost ready
But not right
I'm almost readyCan you see me there 'cause I'm not sure?
See me 'cause I lost my nerve
See me there 'cause I feel worse againCome on, life
I'm almost ready
But not right
I'm almost readyLet me find the truth, I will attack
Find the truth, I won't go back
Find the truth, I'm way off track againCome on, life
I'm almost ready
But not right
I'm almost readyCome on, life
I'm almost ready
But not right
I'm almost ready
I'm almost ready
I'm almost ready
