Innervenus Eyes

Bob Seger

Innervenus eye, the fool performs the sky
Innervenus eye, cause every little heartache whines
Lord, she looked, she looked, she looked so good
She looked, she looked, she looked so good
Innervenus blue, the fools are not so few
Innervenus blue, corporations ran first too
She looked, she looked at me,
She looked at me so good
Looked so good, looked so good to me yeah
Cause you see, I'm free
Well I'm swimmin' in a sea, Ohhh
She makes her story short for double standard listeners

Deep inside of me, she knows
The mirror of her heart is sort of like her sister
And aviating rhyme and role
Innervenus chain
Pills won't ease the pain
Innervenus brain
Cause the universe is sane
Oh but she looked so good, looked so good to me
She's all alone, she's on her own
The wind has blown the heart has grown
