

Sound of Screams

THUMPERS

If you want the sound of the screams

Talk to me in the forest

Till they draw all the lines

Run into the river at night

Head ringing, watch your parents jumping over the sides If you want the sound of the screams like jumping

Leaving horror for the passions tonight

Feeling up your hand at the sides

Power pushing through your collar till you run out of life I can see gallows where the old trees were

And the loch where they would drown the bikes

I see the places that we all make us with animal thirst

For the generations that came behind

Now you're telling me that I can't look back

I've got a life and all the plans I've made

Well, I think I'll take the time before you talk me right

To put a metal wall in the way If you want the sound of the screams

Talk to me in the forest

Till they draw all the lines

Run into the river at night

Head ringing, watch your parents jumping over the sides If you want the sound of the screams like jumping

Leaving horror for the passions tonight

Feeling up your hand at the sides

Power pushing through your collar till you run out of life Looking for the days when the back streets took us

Jumping bridges in a painted car

I'm snatching for them in the bottom of a short hold price

That experimenting tore apart

I could feel longer but I broke my arm

And when I did, it made a precious sound

Like the parting of a list before the judges start to howl

Like they're doing right here and right now If you want the sound of the screams

Talk to me in the forest

Till they draw all the lines

Run into the river at night

Head ringing, watch your parents jumping over the sides If you want the sound of the screams

Start smoking; gotta find a way to slow down the time Sound of screams

Two beating hearts

Sound of screams

Two beating hearts It's not far enough If you want the sound of the screams

Talk to me in the forest

Till they draw all the lines

Run into the river at night
Head ringing, watch your parents jumping over the sides If you want the sound of the screams
Start smoking, gotta find a way to slow down the time Sound of screams
Two beating hearts
Sound of screams
Two beating hearts
Sound of screams
Two beating hearts
