

# All That We Needed

## Plain White T's

If you could come clean about everything  
It would be easy for you to be sorry  
If you could see all the possibilities  
We might not still be standing  
Where we started Oh no, don't let me go for this  
Don't let me go for this I might be a fool, you might be one too  
Maybe we're all that we needed  
Two wrongs don't make a right  
But I don't care tonight  
Maybe we're all that we needed You could say we were just a big mistake  
But I think it's worth making, worth repeating  
I would say good things come to those who wait  
I would say anything if you'd believe it Oh no, don't let me go for this  
Don't let me go for this I might be a fool, you might be one too  
Maybe we're all that we needed  
Two wrongs don't make a right  
But I don't care tonight  
Maybe we're all that we needed Maybe we're perfect but not meant to be  
Or more alike then we're willing to see  
Maybe we're not meant to not disagree  
Maybe we're crazy, baby If you could come clean about everything  
It would be easy for you to be sorry  
If you could see all the possibilities  
We might not still be standing where we started. Oh no, don't let me go for this  
Don't let me go for this I might be a fool, you might be one too  
Maybe we're all that we needed  
Two wrongs don't make a right  
But I don't care tonight  
Maybe we're all that we needed I don't care tonight  
Maybe were all that we needed  
I don't care tonight  
Maybe were all that we needed
