

Angel

Dru Hill

Advisory - the following lyrics contain explicit language:

Girl it's been so long
Since I held you in my arms
So I picked up pen and paper
And decided to write you a song Things just ain't the same
Since you took your love away
All I have is dark and lonely days
'Cause the sun don't shine my way Wish that I could find the words to say
To show you love is real
The words just can't express the way I feel [Chorus]
You're my angel
My sun up in the sky
We've been through hell and back together
Why you want to leave me now
Only you can ease the pain I feel
And wipe my tears away
Won't you fly back home and make me whole again Baby not a day goes bye
That I don't want to cry
When I think of what we had
How you walked out of my life All I had was yours to take
Till my heart you chose to break
Still wish that I could make love to you
Just one more time for old times sake If only I could find the words to say
To show you love is real
The words just can't express the way I feel [Chorus]
You're my angel
My sun up in the sky
We've been through hell and back together
Why you want to leave me now
Only you can ease the pain I feel
And wipe my tears away
Won't you fly back home and make me feel whole again
Come back home

Come back home 'Cause without you here beside me
My house is not a home
Only you can ease the pain I feel
And wipe my tears away Won't you fly back home and make me whole again
You're my angel
My sun up in the sky
We've been through hell and back together Why you want to leave me now
Only you can ease the pain I feel
And wipe my tears away
Won't you fly back home and make me whole again You're my angel
My sun up in the sky
We've been through hell and back together
Why you want to leave me now Only you can ease the pain I feel
And wipe my tears away
You've been gone too long so won't you come back home
