Girl it's been so long  
Since I held you in my arms  
So I picked up pen and paper  
And decided to write you a song Things just ain't the same  
Since you took your love away  
All I have is dark and lonely days  
'Cause the sun don't shine my way Wish that I could find the words to say  
To show you love is real  
The words just can't express the way I feel [Chorus]  
You're my angel  
My sun up in the sky  
We've been through hell and back together  
Why you want to leave me now  
Only you can ease the pain I feel  
And wipe my tears away  
Won't you fly back home and make me whole again Baby not a day goes by  
That I don't want to cry  
When I think of what we had  
How you walked out of my life All I had was yours to take  
Till my heart you chose to break  
Still wish that I could make love to you  
Just one more time for old times sake If only I could find the words to say  
To show you love is real  
The words just can't express the way I feel [Chorus]  
You're my angel  
My sun up in the sky  
We've been through hell and back together  
Why you want to leave me now  
Only you can ease the pain I feel  
And wipe my tears away  
Won't you fly back home and make me feel whole again  
Come back home

Come back home'Cause without you here beside me  
My house is not a home  
Only you can ease the pain I feel  
And wipe my tears away Won't you fly back home and make me whole again  
You're my angel  
My sun up in the sky  
We've been through hell and back together Why you want to leave me now  
Only you can ease the pain I feel  
And wipe my tears away  
Won't you fly back home and make me whole again You're my angel  
My sun up in the sky  
We've been through hell and back together  
Why you want to leave me now Only you can ease the pain I feel  
And wipe my tears away  
You've been gone too long so won't you come back home
