

I Don't Wanna Die

Subhumans

It's getting out of hand they don't understand
they never ever will they never
ever can
I don't wanna live if I can't be free
the system kills but it won't kill me
i don't wanna die
can't run away come back someday
cos it won't change
whatever you say
fear and guilt up to the hilt
they can't escape from the walls they built
i don't wanna die
they gave me a gun and told me to run
defend your country from the atom bomb
i said why? they couldn't reply
the system kills but I don't wanna die
i don't wanna die
