Love Can

Shaun Jacobs

Love can cross borders and love can break walls
Love can unbind us, love can define us
Love can see through what our eyes can't undo
Love got me thinking love can do anythingTake my hand
It's not that we're lost
We're just plotting a different course than we initially thought
We are free
When we're on our knees
Put your hand in mine
We'll make it in time you'll seeCome with me
We'll find what's in store
For the heart that is bursting, the soul that is thirsting for more
We are free
Come and see
We'll make it in time, we'll find everything we need
