

# Owned And Operated

## Bigwig

One nation under God family owned and operated  
Resist! Protest!  
These colors may not run  
But they sure seem like they're faded  
Resist! Protest!  
Land of opportunity?  
But not for you and me  
Is this how it has to be?  
Don't need no revolution  
Don't need to retribution  
We got a problem with an obvious solution  
Disarm and put away your pride  
Patriotic ego yet we struggle to survive so  
Cease Fire, how many have to die before we learn?  
Now we're gonna burn  
Never gonna learn  
Never gonna fight your fucking war  
You're settling the score  
Predation of the poor  
What are we fighting for  
We won't fight your fucking war  
Increase the budget for a slaughter overseas  
Impede progress!  
But cut the spending to control disease  
Send help, distress!  
The land of opportunity  
Kids sleeping in the streets  
Is this how it has to be?  
Can this "land of liberty"  
Win the "war on poverty?"  
Don't want to see defeat if this is victory  
Disarm and put away your pride  
Patriotic ego yet we struggle to survive so  
Cease Fire, how many have to die before we learn?  
Now we're gonna burn  
Never gonna learn  
Defend front lines and be promoted to a slave  
Eminent domain will take our homes and graves  
We vote in the past

Not voting anymore  
Another four?! Another four?!  
Of poverty and war
