Take a Chance

Blue Angel

I wanna run my fingers through your hair
Squeeze your hand and tell you that I care
Park in the dark and kiss goodnight
Thrill me h-h-hold me tight
C'mon pretty baby you could maybe take a chance with me
I'll fall still when you walk in the room
I'll look up and you'll be lookin' c-c-cool
Curled up smile upon your lips
One button low my heart just flips
C'mon pretty baby you could maybe take a chance with me
The stars complete the melody
Could you say you belong to me
And as they ride the milkyway
Baby, baby can I have this dance
Baby, baby can you take a chance someday-
Did I tell you now
I wanna...
