Red Love

Pia Mia

I must be dreaming
You fit so perfect
I wanna give myself away
You must be worth it
Give you my touch
You take me higher and above
And then you turn
And leave me here with nothing

Red love, red, red love
Red love, red, red love

All that I wanted
Was for the first one to care
You kept your secrets
And told me life was unfair
Gave you my trust
You had me right there in your clutch
I felt the rush
Then you just looked away like

Red love, red, red love
Red love, red, red love

You didn't even turn around to look back
Didn't even stay to watch me cry
Now when I turn around to look back
Everything you said was a lie
Oh, baby baby

Red love, red, red love
Red love, red, red love

Guess I was dreaming
I wore my heart on my sleeve
And when the rain came pouring down
You were so far out of reach
But I'm waking up
Sometimes enough is enough
If I can never get it back

At least I gave it all for

Red love, red, red love
Red love, red, red love

You didn't even turn around to look back
Didn't even stay to watch me cry
Now when I turn around to look back
Everything you said was a lie
Oh, baby baby

Red love, red, red love
Red love, red, red love

Red love, red, red love
Red love, red, red love
