

# VISITOR

## Visitor

I'm not a visitor  
But I got some words for you  
That voice you refused  
Will not come back to you We are done with words  
It's time for noise  
We are done with words  
It's time for toys It's no time to stand  
It's time to jump  
No time to sleep  
It's time to bump You've got to take no more  
Use up all your goods  
You've got to hit the floor  
It's time you understood Give up your quite life  
Do what your instincts say  
Drop the same old thing  
Roll around and play It's no time to stand  
It's time to jump  
No time to sleep  
It's time to bump It's no time to stand  
It's time to jump  
No time to sleep  
It's time to bump It's time to jump  
It's time to jump  
It's time to jump There's no time to sleep  
It's time to jump  
It's time to jump I'm not a visitor  
I'm not a visitor  
I'm not a visitor  
I'm not a visitor I'm not a visitor  
I'm not a visitor  
I'm not a visitor  
I'm not a visitor
