

# Light of the Day

## Kula Shaker

Hmm, will my love, will my love be unsolved?  
Still as I wander, though I'm nearly done  
I can see, I can see I'm alone  
Time understanding the seeds that I've sown  
Understanding the seeds that I've sown I could see by the light of the day that has gone, oh, oh  
I could see by the light of the day that has gone  
Thinking of days that I whittled away  
Now they're gone, gone, oh, oh  
What did I find was there? Gone, gone, oh, oh, now will my heart find where?  
Hmm, I can see by the light of the day that has gone
