Nice And Wet

Gerald Levert

Prepare yourself, turn off your phone
And get in position 'cause baby it's on
And it's on
Ain't nothing wrong
With being soaking wet
Ain't nothing wrong
With being soaking wet
Ain't nothing wrong
With being soaking wet
Ain't nothing wrong
With being soaking wet
It's a full moon and love is in the air
Champagne is chilling strawberry bubble bath
I go out of my way just to turn you on
Forget about the TV and throw away the damn phone
My silk pajamas the ones you really like
Are pressed and ready 'cause tonight is your night
So wear that perfume and that black negligee
You don't have to wear nothing just have it your way
A night you won't forget
Come on, gonna keep it nice and wet
A night you won't forget
Gonna keep it nice and wet, come baby, yeah
I know you're ready
For the real deal
I know all the switches
That turns you on
So tonight is the night I'm going to
Flock them all night long
My body's oh so hot
You got me in a sweat
And tonight I promised you
I'll keep it nice and wet
A night you won't forget
I'm gonna keep it nice and wet
A night you won't forget
I'm gonna keep it nice and wet
I got feelings inside
(I really want to give)

I won't be too hard
(I know that you're sensitive)
Girl sit back and relax
(And I'll take you there)
Girl you got to get loose
Why don't you let down your hair?
A night you won't forget
Gonna keep it nice and wet
A night you won't forget
Gonna keep it nice and wet
Prepare yourself, turn off your phone
And get in position 'cause baby it's on
And it's on
Prepare yourself, turn off your phone
And get in position 'cause baby it's on
And it's on
I know you're ready
For the real deal
Oh baby, I'm gonna make it a night you won't forget
Gonna keep it nice and wet
A night you won't forget
Gonna keep it nice and wet
A night you won't forget
Gonna keep it nice and wet
A night you won't forget
Gonna keep it nice and wet
A night you won't forget
Gonna keep it nice and wet
I know you're ready
For the real deal
