Fly Away

Dr. Sin

No, don't wanna
Bring you down
It's lurking all around
Nobody knows what lies
Behind the door
All that I've seen
I can't take it anymoreLiving and dying, loving
And hating
(I will show you)
Look on the other side
Living and dying, loving
And hating (take my hand)
Just searching fora signFly away, through
Another day
All the sorrows fade
Time will heal any
Pain you feel
Just fly awayNo, no way we're
Looking back
Believe me that's a factWho do we blame when
Nothing is left to say
Always the same when no
One gives a damm
