

The Weekend Starts Here

Fatboy Slim

The weekend starts here Sit back
Sit back The weekend starts here Sit back {It's one of the most, yeah, I can see what the problem is
You gotta get around here at 11 o'clock so you can still hear it
The same problem is that we can't hear you down there
And we can't hear you here
But we're working on it
Working on what?
Kind of singled out the resistant, uh
What d'ya call it?
[Inaudible]
Well I call it [inaudible] whatever it is
More microphone noise
I just want to warn you } The weekend starts here Sit back The weekend starts here Sit back The weekend starts here
