

# Clowns

t.A.T.u.

Can you see me now? Can you see me now? Can you see? All this weeping in the air  
I can tell were about to fall through floating forests in the air  
Across the rolling open sea  
Now I kiss and run through air, leave the past find nowhere  
Floating forests in the air clowns all around you Clowns are here to let you know where you let your senses go  
Clowns all around you it's a cross I need to bear  
All this black and cruel is fair, this is an emergency  
Don't you hide your eyes from me, open them and see me now Can you see me now? Can you see? Can you see  
me now?  
Can you see? Can you see? Can you see?  
Can you see? Can you see me now? Can you see?  
Can you see? Can you see me now?  
Can you see me now? Can you see clowns all around you  
Can you see? Can you see?  
Can you see? Can you see me now?  
Floating, floating, floating, floating See me here in the air not holding on to anywhere  
But holding on so beware I have secrets I won't share  
See me here wishing you if I don't deny I do contemplate our wish away  
If I ask you not to stay, clowns are here to let you know where you let your senses go  
Clowns all around you it's a cross I need to bare All this black and cruel is fair  
This is an emergency don't you hide your eyes from me  
Open them and see me now Can you see me now? Can you see me now? Can you see? Can you see? Can you  
see?
