# Low

## Testament

Fuel the fire for war
It's man against mankind
Bruises that they bear
Been beaten down with timeInnocent people suffer the loss
Your broken hope so close to the cross
Sometimes, you just don't know
How low, how low you can go
So low it's sickening
Low, low show some mercyHey you piece of shit
Just leave the kids alone
Why can't you bear
Things that we endureInnocent people suffer the loss
Lost hope with faith to the cross
Sometimes, you just don't know
How low, how low you can go
Show some sympathy
Low, low show some mercy
