

# Mr President

## Kim Dotcom

The war for the internet has begun  
Hollywood is in control of politics  
The Government is killing innovation  
Dont let them get away with thatI have a dream  
Like Doctor King  
This is the time to stand up and fight  
By any means if we dont do anything  
They will just blame it on the copyrightKeep this movement going  
Keep this movement tweeting  
Keep this movement moving  
The pursuit of happiness  
Happiness, happiness, happiness  
The pursuit of happinessLets get together, lets all unite  
Or they will do whatever they like  
Lets get together, lets all unite  
Or they will do whatever they likeWhat about free speech, Mr President  
What happened to change, Mr President  
Are you pleading the fifth, Mr President  
Are you going to fix this, Mr PresidentWe must oppose  
Dont vote for those  
Who want to take us back in time  
We must expose  
The people who chose  
To turn innovation in to crimeLets get together, lets all unite  
Or they will do whatever they like  
Lets get together, lets all unite  
Or they will do whatever they likeWhat about free speech, Mr President  
What happened to change, Mr President  
Are you pleading the fifth, Mr President  
Are you going to fix this, Mr PresidentHollywood marionette  
Taking over our internet  
Dont let them get away with that  
Dont let them get away with thatIt starts with you and me  
We will make history  
It starts with you and me  
We will make historyLets get together, lets all unite  
Or they will do whatever they like  
Lets get together, lets all unite  
Or they will do whatever they likeWhat about free speech, Mr President

What happened to change, Mr President  
Are you pleading the fifth, Mr President  
Are you going to fix this, Mr President
