

Beat You Up

Tech N9ne

When its drama in the air
imma beat you up
you don't fuck with me
I don't care
Imma beat you up
anytime or anywhere
Imma beat you up (x3)
yeah yeah
This is anger
This to anybody who say something
derrogatory about a stranger
Meaning strange music
Or connected its best
if ya just exit when your neck get's requested
to get slit
Niggas be hiding behind they myspace irrate
but get all buddy buddy in my face
i hate envious motherfuckers

better migrate
off into something other than my state
if you was better than us
gettin more cheddar than us
you would be measuring up
you niggas ain't clever enough
all of you bitchin because you wishin
you was in our position
fuck you niggas
anybody blow
We make the decision
strange music
trav and tech having threats
from cyber thug niggas
yapping shit ain't happened yet
Cause you fags in check
what do we need to be cashing next
that'll be your soul motherfucker cause your ass in debt
