My Maker (Haujobb Remix)

Slave Republic

Raw - lay me to rest I kiss you good-bye
Try - try to forget that my heads on fire

Change - life asks me to kiss you good-bye
Burn - burn down the bridge an watch it die

Refrain:
You know what i am like you made me this way
My maker, you're the one to blame

Leave - leave me alone get out of my mind

Not ok, to mess this way
No pain reliever to clear me up
No one to help me to make it stop

Refrain:
You know what i am like you made me this way
My maker, you're the one to blame
