

Dinosaurs Became Extinct (And You're A Fossil)

[Atreyu](#)

You had anger pulsed rage
unexplored pathways limitless boundaries
a voice above the dim screaming so loud
and now you are the masses you used to run so fast
where were you going
no where
I've seen the path you took it leads in circles
counter productive
exhausted by your slavery you are broken
nothing new
preach words you no longer believe in
stale words are empty as your heart
your lies breed hatred and contempt
on grasping we won't help as you're consumed into nothing your lies defeat your purpose
your purpose is only lies
