Here To Stay

Perkele

I never put much behind no smiles
Never felt this way for more than a little while

Loving you makes more sense
Than keeping up or paying rent
Anytime, anytime

You walked by you got my eye
You bring on the blue blue sky
Make my day blow my blues away

I'm gonna let the four winds blow
Ain't gonna worry which way they go
I'm here to stay
Na na na na na na na
Oh, oh I'm here to stay, alright

Never stayed long with no country dreams
Never take much from no city schemes
No I never did, no I never did

You came along I forgot about the past
Loves gonna grow I know it's gonna last
All the time, all the time

Like the moon comes creeping on a summer night
Sometimes things come on just right
Make my day, blow my blues away

I'm gonna let the four winds blow
Ain't gonna worry which way they go
No I'm here to stay, here to stay

Hm

Oh I'm here to stay, alright

Never put much behind no smiles
Never felt this way for more than a little while

Hm

Loving you makes more sense
