Supernatural Fire

Ed Kowalczyk

Can you see the signs?
Can you read my face?
Did we reach it?
Did we fall from grace?
Would we know the difference anyway?
If you want to win
Babe you have to playChorus:
Shake down on the road
Fall into the riddle
And right into the midst of my supernatural fire
Hey hey
I can't understand
Why the hesitation
To fall into the midst of my supernatural fireOh the irony of this dying age
It pierces my heart everyday
But we're full of fight
And we're full of love
Singin' naked like the angels aboveChorusSupernatual fire
Fire that burns away
All the hypocrisy and hate
Smiles right in my face
Mystical burn it down
Mystical burn it down
Mystical burnAnd the fire burns for a thousand years
All impurities,
They will disappear yeah
Refine it all into high octane
Push the redline like a moth to flameChorusHey hey
Supernatual fire
Hey hey
Supernatual fire
