True Hold

patten

Out to a half closed door
Here's to the ones that will survive
Feel too hard in the end
Fall together
Feels weird to be
me my sweetheart
Chances are for realShould be watching myself
frozen into your throat
We thought it was
iterate in a fast car
Here come sharp turns with her
It's too diamonds and pearls
Fears remind me of life
What you wanna?
Choose another answer & go
Is it worse for your armory?
We could hold your arm
through the wall
with a silver shock
You know if the wall is far?If you go
Fields where the horizons stops
Houses falling down here
that's not a train
Well that season's gotta change
She owes you five years from now
She's got a street
filled with crowns for your heart
Fault lines and you'll
hear the smoke collaged
against the yellow
True hold
Seems like a trial
Fears remind me of life
Research your tears for fire
We're gone
Show you took line
all round and cracked
G rides with push bar
This one reminds me of lifeTo hold

Try, falling closer now
There's nothing thrown away
