

# Walk A Little Straighter

Billy Currington

I remember lookin' up to look up to him  
And I remember most of the time he wasn't there  
I'd be waitin' at the door when he got home at night  
He'd pass me by to go pass out in his chair  
And I'd say, walk a little straighter, daddy  
You're swayin' side to side  
Your footsteps make me dizzy and no matter how I try  
I keep trippin' and stumblin', if you'd look down here you'd see  
Walk a little straighter daddy, you're leading me  
He stumbled in the gym on Graduation Day  
And I couldn't help but feel so ashamed  
And I wasn't surprised a bit when he didn't stay  
He stumbled out before they called my name  
And I thought, walk a little straighter, daddy  
You're swayin' side to side  
It's not just me who's watchin' you've caught everybody's eye  
And you're trippin' and stumblin' and even though I've turned 18  
Walk a little straighter, daddy you're still leading me  
The old man's still like he always was but I love him anyway  
If I've learned one thing from him it's my kids will never have to say  
Walk a little straighter, daddy, you're swayin' side to side  
Your footsteps make me dizzy and no matter how I try  
I keep trippin' and stumblin', if you'd look down here you'd see  
Walk a little straighter, daddy you're leading me  
Yeah, walk a little straighter, daddy you're leading me
