Strip

Brooke Hogan

I just..I just wanna see you Strip
Would you strip for me ?Welcome to the freak show thanks for commin' joining me
I'll just show you what I want then just repeat after me
If your feelin' kinda kinky I can really turn you on
All I need is your co-operation come and play alongYou know that I love you but come on lets take our clothes off
We can be together baby after we can doze off
If you get freaky with me theres nothing wrong with that
It's beautiful naturally but first you gottaStrip for me take all of honey
Wanna see your body cause its only for me
I wanna see you rip it off your body baby
Put a show on for me come and put it on meI wanna see you Strip
I wanna see you Strip
Baby would you Strip ?
I wanna see you StripGetting down to nothing I can see it coming
I have waited for you so long that I'm turning blue
Spiritual a connection deeper than the ocean
I'm twenty thousand leagues in heaven under the seaYou know that I love you but come on lets take our clothes off
We can be together baby after we can doze off
If you get freaky with me theres nothing wrong with that
It's beautiful naturally but first you gottaStrip for me take all of honey
Wanna see your body cause its only for me
I wanna see you rip it off your body baby
Put a show on for me come and put it on meI wanna see you Strip
I wanna see you Strip
Oh baby please let me stripBaby I can barely handle that
Show me just a little and I'll show you more
Stripper is my alter name and stripping is the goal(repeat chorus)
