Fine, Fine, Very Fine Love

Pam Tillis

I never knew how good a love could be
All I'd ever known was make believe
So many times I played the fool
Baby, 'til I met youOh now everything has fallen in place
You can tell by the smile on my face
For every lonely tear that I've cried
I'm that much satisfiedWe've got a fine, fine, very fine love
We've got a fine, fine, very fine love
You know it when you find one
Shining like a diamond
It's so fine, fine, very fine loveOh you are more precious to me every day
Life is better now in every way
You don't have to lay the world at my feet
You have made my world completeWe've got a fine, fine, very fine love
We've got a fine, fine, very fine love
You know it when you find one
Shining like a diamond
It's so fine, fine, very fine loveI've got no apprehensions
You've got the best intentions, babeOh we've got a, we've got a fine, fine, fine, very fine love
We've got a, we've got a fine, fine, very fine love
Oh we've got a fine, fine, very fine love
We've got a fine, fine, very fine love
We've got a, oh fine, fine, very fine love
We've got a, we've got a fine, fine, very fine love
